**WALK
TWO MOONS**

Thirteen-year-old Sal's mother left over a year ago. When her friend Phoebe's mom disappears, painful memories of Sal's own abandonment come to the surface. Determined to find Phoebe's mother, the girls begin seeing murderous plots and schemes around every corner. Sal shares these conspiracy theories with her Gram and Gramps during a cross-country trip to confront her mother. But it is only through the telling of her friend's tale that Sal ultimately realizes things—and people—are not always what they seem. Based on the Newbery Medal-winning novel by Sharon Creech
